## THE SPECULATIVE MARKETS.

Wheat in the Hands of the Bulls Yesterday.

CORN OPENED TAME AND QUIET.

Provisions Again Bearish-Hogs Ac tive and Lower-Cattle Business Fair and Prices Steady on Everything Good.

CHICAGO PRODUCE MARKET. CHICAGO, Nov. 28 .- [Special Telegram to THE BEE. |-The wheat market was bullish to-day, and a further improvement of 21/c in May was made, of which 25c was held. The news was generally bullish, and the crowd was bullish, cables were better, and New York reported good foreign buying of December and May, the Germans being represented as most actively engaged in accumulating cereal property. The amount on passage is 1,120,000 bushels less than last week, and the domestic movement is shown to be falling off. Rough weather is coming on and further diminution in movement is expected to follow. No exports of wheat are mentioned, but the equivalent of about 130,000 bushels went out in the shape of flour from Baltimore and New York alone, and in proof of the revival of the foreign demand for wheat at the seaboard, New York advises that December shows a greater relative advance by %c in December than in May, the difference having been narrowed to that extent. There is little doubt that farmers' deliveries of spring wheat are dropping away, though the receipts at Minneapolis promise to be large until the cars already on the way from the interior are emptied of their contents. The markets up there are quoted as firm at an advance over yesterday. Receipts at this point are ridiculously small, only amounting to thirtysix cars yesterday with the estimates for today forty-seven cars. For a market that all creation is pointing to as being absurdly out of line with the rest of the world, this is cer-tainly a remarkable exhibit. About the only thing that occurred to disturb the security of the bulls was the information that St. Louis millers had reduced the price of their flour, millers had reduced the price of their flour, and that this example was being followed through the winter wheat sections, where values are already below those ruling in the northwest. Several local firms reported foreign selling orders at the advance. Then Prime gives it as his opinion that the winter wheat is going into winter in splendid condition as a whole. These little things did not weigh in the bal-These little things did not weigh in the bal ance to day, however, for the bears were pretty badly rattled, and the more timorous among them did not propose to go over Thanksgiving short of any wheat. The covering by shorts was very general, and, as on yesterday, the market failed to react when the support from that source relaxed occasionally. The bulls were in charge, and sionally. The bulls were in charge, and there was good buying from every quarter. The recovery from yesterday morning amounted to fully 4c. One cause of the strength was the report that passed around, that there was not the slightest danger of cash wheat in Chicago being flung friendless upon an inhospitable world on the 1st of December. It is in a fair way to be taken. of by friendly hands. world on the 1st of December. It is in a fair way to be taken c of by friendly hands. May wheat opened this morning at \$1.00\forall advanced to \$1.00\forall (01.00)\forall (01.00)\forall

eading short.

Corn opened tame and quiet, without any special feature. The cortinued over-running of receipts beyond the previous days' estimates keeps the fact of a larger crop and its possibilities constantly before speculators. There still continues to be a fair amount of business done for export at New York and other Atlantic shipping ports, with a moderate quantity going out by way of New Orleans, but Liverpool was weak to-day and lower, and for Friday estimates were 620 cars. The opening prices were about at 620 cars. The opening prices were about at yesterday's closing rates to a shade higher, but at these there was only a moderate desire evinced to trade. The demand for cash corn for shipment was good, but the bearishness of the speculative branch of business enabled shippers to buy at from \(\frac{1}{2}\llde{\text{m}}\) \(\frac{1}{2}\llde{\text{m}}\) c under yesterday's figures. There was a good deal of realizing by tired longs and some changing from December to May. Fluctuations were negrow, but a slight decline was exampled. were narrow, but a slight decline was established along the entire line of speculative futures. November closed at 36½c and is now even with December. January now even with December. January closed at 35%c, and at 38c.

In provisions the movement was again bearish. The large run of hogs at all the bearish. The large run of hogs at all the prominent packing points continued the sell ing noted yesterday, and as prices receded and the decline forced the unloading of "stop order" holdings offerings became excessive. The bear element had, indeed, complete control, and met with little opposition in prosecuting their operations. The shorts, of course, bought pretty freely, but the speculative business transacted on the outside, and the general account was comparatively moderate. moderate. Cash property, however, was in good request, and the sales of lard and meats make quite a large aggregate. The speculative interest, as usual, was confined mainly to January and May, and, as on yesterday, the best prices of the day prevailed at or near the opening. Closings were at the bottom figures as a rule for lard, and a triffe better than the inside quotation for short ribs and part. tations for short ribs and pork. In pork the actual decline suffered was 17⅓@25c, in lard 7⅓@17⅓c, in short ribs 7⅓@10c.

## CHICAGO LIVE STOCK

CHICAGO, Nov. 28 .- | Special Telegram to THE BEE. ]-CATTLE-Business fairly active and prices steady on everything good or useful, either in native, ranger or Texas line. Good natives, and eyen useful steers, were scarce, and on the other hand, the pens were flooded with rubbish and common stock, both natives and Texans. Prime native cows and heifers are selling substantially higher than last week, and the chances are that such will find a good market now that the run of rangers is about coming to a close, or at least, a big reduction in number. The canning stock remains as low as at any time, and there is little or no show for improvement in this class, as canners have made their goods this year at very low prices and are now ready sellers. Good butchers' stock is liable to sell readily from this time on until spring. Stocker and feeder trade is down to low ebb, and cannot improve until there is an up-turn in fat cattle. Choice to extra beeves, \$5.00@ 5.50; medium to good steers, 1,350 to 1,500 lbs, \$4.90; 1,200 to 1,350 lbs, \$3.50 @4.10; 950 to 1,300 lbs, \$3.20@3.75; stockers and feeders, \$1.300@3.30; cows, bulls and mixed, \$1.35@3.30; blus, \$2.10@240; Texas steers, \$2.30@3.40; Indians, \$3.00@3.95; cows, \$1.65@2.30; western rangers, \$3.25@4.30.

Hogs—With fresh receipts, which were unexpectedly heavy, there were 45,000 to 47,000 on sale. Values ruled 5@10c lower, but at that decline there was an active business, both packers and shippers taking their average number, yet a good many were carried over. Some packing sorts sold down to \$5.10 @5.15, but the bulk sold around about \$5.25@ 5.35, and best heavy at \$5.40@5.45. Light sorts were not identify and sold largery of rangers is about coming to a close, or at least, @5.15, but the bulk sold around about \$5.25@ 5.25, and best heavy at \$5.40@5.45. Light sorts were not pientiful, and sold largely at \$5.35 for 180 to 190-1b averages. Light of 120 to 135-1b averages were extremely scarce, largely sought for and sold higher than any other sort, the Nelse Morris outfit paying as high as \$5.50@5.55 for some lots. It should be remembered by shippers that this demand is liable to cease any day, or as soon as the Morris party fill their outstanding contracts

for light English meats. The demand at these prices is likely to collapse any day. The ordinary run of 180 to 190 lb averages and 160 averages sold around about \$5.35 to \$5.40, with Moran & Healy and the Fowlers the leading buyers. The Tipton company, who are reckoned on as regular buyers of the 160 lb averages, are buying rather sparingly

#### FINANCIAL

New York, Nov. 28 .- | Special Telegram to THE BEE. | - STOCKS - Stocks opened about steady, and early there were some small ad vances made. Rock Island was more animated than for some time, and broke badly. It was said that the President Cable's state ment to the executive board yesterday was unfavorable, and there was a good deal of selling in consequence. Depressing cables regarding the London situation also had a weakening effect, while Rock Island's decline helped to drag the list down. The decline up to noon, however, was not heavy. The break in Rock Island was severe, it selling down to par, but closing 114 points better, or 4% points below the opening. Some long stock undoubtedly came out, but much of the decline was due to the bears and shorts selling. It was rumored that dividends would be reduced or passed, and that a resolution would be adopted changing dividends from quarterly to semi-annually, Omaha lost 14 points and Northwestern 14 of a point. The general market closed firm, and, aside from the aforementioned, was not far from the opening figures.

The following were the closing quotations: The following were the closing quotations:

Kammerer, Boyd, Baker, Farbank, Cudaly, Helmholz, Hutchinson, Young and Smith figured perhaps most conspicuously. The shorts and bulls were competitors for the wheat that came on the market, and both elements were equally anxious. The sentiment was very bullish. Several times during the day Linn took the market away from Hutchinson's brokers by bidding over the market for round lots, when the old gentleman loomed up as a buyer.
